The Disability Standards for Accessible Public Transport 2002 (Paragraph 17.7) state that by 31 December 2007, raised taxi registration numbers must be placed on the exterior of passenger doors (of taxis) forward of the door handle.

VISUALISE™ produce a range of tactile registration signs, custom made to suit your individual requirements, colour schemes and numbering systems. Our signs come FULLY ASSEMBLED, include a self-adhesive backing for easy installation. The Standards do not specify that Braille is a requirement on these signs, however VISUALISE™ do offer Braille as an optional extra.

Pitt & Co (Aust) Pty Ltd are the manufactures and distributors of the exceptional range of VISUALISE™ Braille & tactile signs using a Patented method of smooth to touch raised and embedded tactile lettering and securely embedded stainless steel spheres for Braille characters.

As well as being a pleasure to use, the standard range of VISUALISE™ Braille & tactile signs conform to the Unified Braille Code (UBC), the requirements of the Building Code of Australia (D3.6) and fulfil the requirements of the Australian Standards AS1428.2-2001 and AS 2899.1-1986.

VISUALISE™ are a leading supplier of Braille and tactile signs to Public Transport and are proud to have supplied signage for various rail authorities and rolling stock manufacturers, councils and government departments Australia wide. Our Braille and tactile signs are proven to withstand the harsh weather and rigorous use associated with the public transport industry. Our signs are impervious to a wide range of cleaning products and solvents, whilst also being fire and vandal resistant and UV stable.

Quality is very important to VISUALISE™. Every sign is carefully hand assembled and the entire product range is proudly Australian Made. Our signs are provided with a complete THREE YEAR PRODUCT GUARANTEE (refund or replacement), a Certificate of Compliance and Installation Instructions.
